Informatics student specializing in Full-stack Web & Android Development with a strong UI/UX foundation. Proven collaborator in high-impact organizations and international projects, successfully managing stakeholders and administrative workflows for events. Passionate about bridging technical complexity with intuitive design through agile teamwork.

EDUCATION

Bachelor Degree – Informatics, Duta Wacana Christian University GPA: 3.68/4.00	Aug 2022 – Present
Senior High School – SMA Pangudi Luhur St. Yusup, Yogyakarta Mathematics and Natural Sciences (MIPA) subjects	Jul 2019 – Jun 2022

PROFESSIONAL EXPERIENCE

Internship - Web Developer, Studyfirst - Developed a React-based LMS using TypeScript and Tailwind CSS, integrating Supabase for role-based authentication and database management. - Built a WordPress landing page for IELTS Simulation, collaborating with UI/UX and Product Management teams to translate designs into functional, interactive layouts. - Maintained company website via WordPress, managing 17+ SEO articles and recruitment updates in coordination with Marketing and HR teams.	Aug 2025 - Dec 2025
Part Time - Assistant Lecturer, Universitas Kristen Duta Wacana - Facilitated lab sessions for 4 core courses, including Database Systems, Computer Networks, Web Development, and Software Quality Assurance, for classes of up to 40 students. - Developed 20+ practical lab modules simulating real-world scenarios, achieving a 90% student project success rate through hands-on technical guidance. - Evaluated 700+ technical submissions, providing individualized feedback on coding and system configurations to ensure students met the learning objectives.	Feb 2024 - Present

ORGANIZATION EXPERIENCE

Google Student Ambassador – Campus Ambassador & Community Builder - Acted as the official technical liaison between Google and the university, promoting the adoption of Google technologies and developer tools through peer-to-peer advocacy. - Curated high-quality learning resources and mentored peers in identifying impactful projects, bridging the gap between the academic curriculum and Google's innovation ecosystem to foster student-led technical growth.	Sep 2025 – Dec 2025
HMTI UKDW Yogyakarta – Secretary - Streamlined internal workflows and organizational communication by drafting agendas, meeting minutes, and activity reports. - Managed timelines and task delegation for 20+ members through weekly standups, achieving consistent on-time completion of organizational objectives. - Directed the distribution of 100+ professional documents and maintained membership records for 20+ students with 95% data accuracy.	Feb 2024 – Jan 2025

SKILLS

SOFT SKILLS		HARD SKILLS	
- Collaboration - Mentorship - Adaptability - Problem Solving - Meticulous - Communication	- Leadership - Time Management - Reliability - Critical Thinking - Creativity - Public Speaking	- React.js - Tailwind CSS - TypeScript - JavaScript - Kotlin - Jetpack Compose	- Node.js - PHP - Python - Java - PostgreSQL - Firebase

CERTIFICATION

- Certiport - IT Specialist: HTML and CSS (Click Here for Credentials) - Google for Education - Gemini Certified University Student (Click Here for Credentials) - Google for Education - Gemini Certified Educator (Click Here for Credentials) - SAP - SAP Overview (Click Here for Credentials) - Cisco - CCNA: Switching, Routing, and Wireless Essentials (Click Here for Credentials)

PROJECTS

Aplikasi Data Relawan Kota Yogyakarta – UI/UX Designer & Front-end Developer - Designed high-fidelity prototypes in Figma using user-centered principles to ensure an accessible experience for managing large-scale volunteer datasets. - Developed the frontend application using React.js, TypeScript, and Tailwind CSS, translating complex data requirements into a responsive, high-performance, and maintainable codebase. - Collaborated directly with BAPPEDA stakeholders to identify user needs and implement secure data management features, ensuring the platform met official government standards for public service applications.	Sept 2025 – Present
Learning Management System (LMS) Studyfirst – Front-end Developer - Developed a responsive and centralized LMS frontend using React.js, TypeScript, and Tailwind CSS, providing a seamless user interface for Students, Course Managers, and Administrators. - Integrated Supabase for secure user authentication and real-time database management, ensuring robust role-based access control and efficient data handling across the platform. - Implemented core business features including course management modules and student progress tracking, translating business requirements into functional, high-performance web components.	Sept 2025 – Dec 2025

PROJECTS

AI News Portal – Front-end Developer

Aug 2025

- Developed a dynamic news aggregator platform using React.js and TypeScript, providing real-time updates on Artificial Intelligence trends by integrating third-party News APIs.
- Architected a responsive and high-performance UI with Tailwind CSS, ensuring optimal readability and seamless user navigation across various device screen sizes.
- Optimized data fetching and state management to deliver a fast-loading news feed, showcasing the ability to transform complex external data into an intuitive and clean user interface.

Sealnote – Android Developer & UI/UX Designer

Feb 2025 – Jun 2025

- Conceptualized and designed a "Stealth Mode" UI/UX, featuring a functional calculator interface that disguises the secure note-taking system to prioritize user privacy and discretion.
- Developed the mobile application using Kotlin and Jetpack Compose, implementing Material Design 3 (Material You) principles to create a modern, dynamic, and responsive user interface.
- Engineered a multi-layered security architecture featuring biometric authentication (Fingerprint/Face ID) for "Secret Notes," with Firebase integration for secure data synchronization.

Fishbot Go – Game Developer & Designer

Sep 2024 – Dec 2024

- Designed and developed an interactive 2D platformer game featuring a unique "Fishbot" character, focusing on intuitive mechanics and engaging level design to enhance player experience.
- Implemented core game logic and physics-based movements, ensuring smooth gameplay transitions and responsive controls across various game stages.
- Curated visual assets and UI elements to create a cohesive aesthetic, balancing functional game HUDs with creative environmental storytelling.

LATEST VOLUNTEER EXPERIENCE

Language Buddy for Goshen College - Volunteer

Jan 2026 & Jan 2024

- Facilitated intercultural exchange and linguistic mentoring for international students to support their academic and social adaptation.
- Developed strong interpersonal communication and cross-cultural empathy through consistent weekly discussion sessions.

Google DevFest Jogjakarta - Volunteer

Dec 2025

- Managed registration, food and beverage logistics, and merchandise distribution for a large-scale developer conference.
- Ensured a seamless attendee experience by coordinating high-volume participant flows and operational support.

English for Informatics Webinar - Presenter

Dec 2025

- Delivered a professional English-language presentation titled "Security for Beginners: Understanding Threats, Risks, and Solutions" as a final course project.
- Simplified complex cybersecurity concepts for a general audience, demonstrating the ability to communicate technical risks and mitigation strategies effectively in a professional English environment.

International O-COCOSDA - Local Organizer

Nov 2025

- Coordinated the registration desk for an international technical conference, serving as the primary point of contact for global delegates.
- Provided versatile operational support across various event areas to ensure smooth session transitions.

Hong Kong PolyU x UKDW STEM Education - Student Mentor

July 2025

- Instructed students in robotics using Micro:bit, 3D design and printing with Shapr3D, and digital content creation via CapCut.
- Facilitated hands-on technical learning, encouraging young innovators to explore hardware and software integration.

SMA Regina Pacis Surakarta x UKDW - Workshop Facilitator

Jan 2025

- Led a technical workshop on Web Design, teaching high school students how to build and manage digital platforms using WordPress.
- Guided participants in creating functional web layouts and understanding the fundamentals of Content Management Systems (CMS).

NVIDIA Indonesia x Youngs Computer x BEM FTI UKDW - Secretary

Dec 2024

- Managed administrative workflows for a technology seminar and AI-showcase competitions featuring Tekken 8 and NVIDIA Canvas.
- Supported the execution of AI-driven GPU demonstrations, coordinating event logistics for technology enthusiasts and competitors.

BEM FTI UKDW – FTI FEST - Secretary

Nov 2024

- Managed the end-to-end administrative workflow for the Typing and Chess Competitions, producing and distributing 460+ official documents and letters.
- Streamlined organizational communication by maintaining precise meeting minutes and managing all internal documentation via collaborative digital tools.

BEM FTI UKDW – FTI GO - Event Committee Member & MC

Aug 2024

- Orchestrated the event's rundown and concept, coordinating with multiple divisions to ensure a cohesive and engaging orientation program.
- Served as the Master of Ceremonies (MC), leading the program flow and facilitating interaction between new students and faculty representatives.

HMTI UKDW – Informatics Anniversary Awards - Event Committee

July 2024 – Aug 2024

- Conceptualized and designed the event series for Coding, Digital Roundup, and Mascot Design Competitions.
- Managed high-level communication between participants, professional judges for competitions, and guest speakers for the Digital Roundup session.
