

JONATHAN WIJAYA

Full-Stack Developer | Software Engineer

Yogyakarta, Indonesia | jonathanwijaya156@gmail.com | github.com/jonathanwijayaa | [linkedin.com/in/jonathanwijayaa](https://www.linkedin.com/in/jonathanwijayaa) | <https://jonathanwijaya-portfolio.vercel.app/>

PROFESSIONAL SUMMARY

A software engineer specializing in full-stack development, with hands-on experience translating business requirements into reliable web applications across government, education, and AI domains. Proficient in React.js, TypeScript, Node.js, and PostgreSQL, with a genuine appetite to learn across the stack and a strong bias toward shipping and learning.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Kotlin, Python, Java, PHP, SQL

Frontend: React.js, Next.js (learning), Tailwind CSS, Axios, Context API, Zustand, TanStack Query, Jetpack Compose, Material Design 3

Backend: Node.js, REST API, PostgreSQL, Firebase, Supabase, SQLite

Tools & Cloud: Git, Github, Wordpress, Figma, Vercel, Gemini API

Practices: Agile/Scrum, algorithms & data structures, RESTful API design, React Hooks, object-oriented programming (OOP), performance optimisation, responsive design, unit testing, CI/CD, security best practices

Languages: Bahasa Indonesia (Native), English (Bilingual/Professional Proficiency)

EDUCATION

Bachelor of Informatics - Duta Wacana Christian University (UKDW)

Aug 2022 – July 2026

GPA: 3.69/4.00 | Coursework: Data Structures & Algorithms, Database Systems, Computer Networks, Software Quality Assurance, Web Development, Mobile Development

PROFESSIONAL EXPERIENCE

Internship - Web Developer, Studyfirst

Sep 2025 - Dec 2025

- Engineered a multi-role LMS (Student, Course Manager, Administrator) using **React.js**, **TypeScript**, **Tailwind CSS**, and **Zustand** for state management; architected **backend services** with **Supabase** including **database schema design**, **Row Level Security (RLS)**, **file storage** for course assets, and **role-based authentication**, securing access control across 3 user tiers.
- Translated **Figma** wireframes into a **pixel-accurate WordPress** IELTS landing page under Agile sprint cadence, collaborating cross-functionally with Product and Design teams.
- Managed 17+ SEO-optimised articles in coordination with Marketing and HR, contributing to measurable improvements in organic search visibility for the company's primary domain.

Part Time - Assistant Lecturer, Universitas Kristen Duta Wacana

Feb 2024 - Jun 2026

- Facilitated lab sessions for 4 core courses (**Database Systems**, **Computer Networks**, **Web Development**, and **Software Quality Assurance**) for classes of up to 40 students, including instruction in **HTML**, **CSS**, **JavaScript**, and **PHP** through hands-on exercise.
- Designed 20+ practical lab modules simulating real-world engineering scenarios, achieving a **90% student project success rate** through structured hands-on guidance.
- Evaluated **700+ technical submissions**, delivering individualised feedback on code quality, system configurations, and debugging strategies aligned with learning outcomes.

PROJECTS

Chatbot Kafe Jogja - Full-stack Developer

Jun 2026 – Present

- Built an **AI-powered** café recommendation chatbot for Yogyakarta using **React.js**, **TypeScript**, and **Gemini API**, featuring a conversational UI deployed on Vercel.
- Implemented content **guardrails** including topic restriction (café/coffee domain only), profanity filtering, and competitor brand blacklisting to ensure safe and on-topic responses.
- Configured system instruction and model parameter (temperature tuning) to control response tone and **accuracy**.

Aplikasi Data Relawan Kota Yogyakarta - UI/UX Designer & Front-end Developer	Sept 2025 – Jul 2026
- Led frontend development of a government volunteer-data management platform using React.js, TypeScript, Tailwind CSS, Axios, and TanStack Query, including an admin dashboard for real-time data monitoring; collaborated directly with BAPPEDA stakeholders to define technical requirements and meet official public-service compliance standards. - Designed high-fidelity Figma prototypes applying user-centred design principles; implemented secure data management features meeting official public-service compliance standards. - Validated system quality through multi-role usability testing: 98.72% Task Completion Rate and positive UEQ scores across all dimensions for Super Admin, OPD, and Volunteer groups.	
AI News Portal – Front-end Developer	Aug 2025
Developed a dynamic AI-trend aggregator using React.js, TypeScript, and Tailwind CSS with third-party News API integration, optimising data-fetching and state management for fast initial load.	
Sealnote – Android Developer & UI/UX Designer	Feb 2025 – Jun 2025
- Built a privacy-first Android note-taking app in Kotlin + Jetpack Compose featuring a "Stealth Calculator" disguise UI and Material Design 3. - Engineered multi-layered security with biometric authentication (Fingerprint/Face ID), Google Sign-In (OAuth 2.0 / SSO); integrated Firebase Auth, Realtime Database, and Storage for encrypted data synchronisation and media management with token-based session handling.	
LEADERSHIP, ORGANIZATION & VOLUNTEER EXPERIENCE	
Google Student Ambassador – Campus Ambassador & Community Builder	Sep 2025 – Dec 2025
Served as official liaison between Google and UKDW, driving adoption of Google developer tools and GCP through peer-to-peer workshops and technical mentoring.	
HMTI UKDW Yogyakarta – Secretary	Feb 2024 – Jan 2025
Managed workflows for 20+ members with 95% data accuracy across 100+ official documents; coordinated weekly standups and ensured consistent on-time delivery of organisational objectives.	
Student Mentor - Hong Kong PolyU x UKDW STEM Education	Jul 2025
Instructed international students in robotics (Micro:bit), 3D design (Shapr3D), and digital content creation, facilitating hands-on hardware-software integration learning.	
Language Buddy - Goshen College International Student Program	Jan 2024 & Jan 2026
Facilitated weekly intercultural exchange and English-language mentoring sessions for international students, strengthening cross-cultural communication and adaptability.	
Secretary - NVIDIA Indonesia x Youngs Computer x BEM FTI UKDW	Dec 2024
Managed administrative workflows for a technology seminar featuring AI-driven GPU demonstrations and NVIDIA Canvas showcase, coordinating logistics for tech industry participants.
